My Dino KW-33

# My Dino Smartwatch

This smart and useful gadget is suitable for children of junior school age. The interface of the watch is made by Canyon designers in a childish "hip-hop" style. Inside the watch, a cute dinosaur Dino lives. Let Dino be your kid's virtual friend in the world of health and sports. Your child can earn apples and feed them to Dino by doing workouts, walking or just not sitting still. Precise measurements of your child's activity will be provided by the watch's pedometer, heart rate monitor and other functions of a full-scale fitness gadget. The watch has two built-in brain-training educational games - "puzzle" and "math". In addition, the watch can show notifications from social networks and messengers, vibrate on incoming calls, display the weather and allow your kid to switch music tracks and camera shutter on a smartphone.

**Let your child take care of Dino by exercising and achieving great results in real life!**
